

Build a Better Fabric: Combination Knitting - Materials

Description of Class

Have you tried learning continental, but the purl messes you up? Do you feel like you often have uneven tension? Or perhaps you are already a combination knitter and you've ever been told you knit "wrong", or been asked "what are you doing", take heart . . . there are no wrong ways to knit as long as we control our stitches. A combination knitter works through the back loop to knit, and the front loop to purl. It can be a fast and easy way to knit, but simple adjustments must be made to follow Western patterns, like how to knit in the round, and understand left and right slanting increases and decreases, and how to work twisted pattern stitches. If you are a Western knitter, then learn the amazing advantages to this knitting methods and how and when you would combine it with your own. If you are a Combination Knitter, learn how to make stitches better and easier for your style.

Skill Prerequisite: Must know how to knit, purl, cast on, bind off. Recognize the knit and purl stitch and be able to work them in a pattern without supervision.

Materials list

Yarn- Any worsted or chunky weight, non splitty yarn

Needles – Whatever needle works with your yarn

Homework list:

CO 20 stitches
